Personal & Family | Business | Insurance Litigation | Healthcare

Sintons LLP is authorised and regulated by the Solicitors Regulation Authority.

Our Vision

Our vision is to set the standard for legal excellence and in doing so become the law firm of choice for businesses, organisations and individuals both regionally and nationally.

We will deliver an outstanding service provided by people who understand clients' needs, take pride in what they do and how they do it.

Our Values

Our values go to the heart of the firm. They define who we are and how we work.

It is by remaining true to our values that we will achieve our vision.

This is what we value most:

Teamwork

We trust and respect one another. We see strength in our diversity as individuals and as a practice. We achieve the best outcomes for clients when we work collaboratively, recognising and respecting the different perspectives that we bring.

Excellent Client Service

We take the time to truly understand our clients' needs and aim to provide practical, tailored and commercial solutions – not just options – to help them achieve their goals. Through hard work and commitment, we aim to develop long-term relationships with all our clients, taking pride in the value that we add.

Professionalism

We work to the highest professional and technical standards, acting with the utmost integrity at all times. We are fiercely proud of our reputation as being a trusted adviser to our clients, often over several generations, and continually strive to ensure that our clients' interests come first and foremost.

Our People

We work together to create an open, supportive and friendly working environment where our people feel valued, can develop their careers and achieve their professional ambitions.
